

LIFE TIME

JSP PREMIUM STAINLESS STEEL GAS CYLINDERS

GLOBAL AWARENESS

Governments are becoming more conscious of environmental and economic factors. We set our goals as one company to provide first class premium Gas Cylinders and accessories to World Wide customers, enabling them to enjoy our LIFE TIME products enhancing their quality of life.

PROPANE

15kg

Stainless Steel Container

Available from 2.5kg – 5.4kg – 11.4kg and 15kg

- > 50% lighter than carbon steel
- > Corrosion resistant
- > Modern design
- > No maintenance costs
- > Fully recycable
- > Environmental friendly

Product Description

Our Stainless Steel cylinders can be built to custom specifications:

- > Company name can be embossed in the shroud
- > Two grips in the shroud for easy handling
- > Company name using screen printing
- > Special sizes available on request
- > Available in AISI 304 and AISI 316

Approvals:

- > RAP: pressure machines regulation
- > RRP: pressure containers regulations
- > ADR: International transport of dangerous goods by rail
- > RID: International transport of dangerous goods by train
- > IMDG: International marine code of dangerous goods
- > EC 1999/36 (PI approved)

Technical Specifications

15 kg Propane Gas Cylinder

Part Number	JSP2015
Material	AISI 304
Volume in liters	36 liter
Height of the cylinder	688 mm
Diameter	300 mm
Weight of the empty cylinder	10.5 kg
Capacity in Propane "kg"	15 kg
Test Pressure	30 bar
Burst Pressure	> 120 bar

STAINLESS STEEL FOR A SUSTAINABLE FUTURE

Reduce the impact on the global climate. Stainless Steel is playing an important role in sustainable design and alternative energy evolution. Ultimately, the most environmentally friendly materials are corrosion resistant and durable, have high-recycled content and recapture rates, provide long service life and reduce resource use. Stainless Steel provides all of these benefits. Overall Stainless Steel and nickel alloys are exceptional life cycle performers in both the environmental and economic sense.
